

U.S. Public Interest Research Group

The Transportation and Climate Initiative is an opportunity for our state to reduce fossil fuel emissions and invest in clean transportation, like electric cars and buses, charging infrastructure, sidewalks/bike lanes, and regional rail.

I urge you to move forward with TCI, and require that the revenue generated by the program is used to expand clean transportation. There are simply too many cars on the road -- leading to increased asthma rates, traffic congestion problems, and a warming climate.

In particular, I'd like TCI funds to go towards zero-emission electric buses, EV charging infrastructure, expanded and improved bike lanes and regional rail, as well as tax rebates toward private EV ownership.

Sincerely,

Randi Byron, Avon, CT
